📍 Ngõ 185 Phùng Khoang, Hà Đông, Hà Nội

SUMMARY

I am a web developer with over 4 years of experience, including more than 1 year in backend development using Laravel and around 3 years specializing in Node.js and ReactJS. I have a strong grasp of architectural design, UX/UI principles, and software design patterns. My experience spans frontend and backend technologies, including Next.js, NestJS, Docker, Redis, and Pub/Sub, enabling me to build scalable, high-performance, and maintainable systems. I also work with cloud platforms such as Firebase and AWS, implement CI/CD pipelines, and design serverless architectures to deliver secure and efficient cloud-native applications.

CERTIFICATE

AWS Certified Developer – Associate

7/11/2025

TECHNICAL SKILLS

Programming Languages	Javascript, Typescript
